Odd Add

Colour the pairs of adjacent numbers in the rows below whose totals are odd e.g $5 + 6 = 11$ (odd number - colour) / $6 + 8 = 14$ (even)

5	6	8	6	7	3	2	4	7	5
4	5	4	2	8	7	5	4	6	3
9	5	7	6	4	9	4	2	5	8
9	5	2	4	8	5	4	3	5	9
4	3	5	9	8	4	5	8	2	3
6	2	7	9	6	1	2	3	4	5
4	2	3	4	5	3	7	4	7	2
7	2	5	4	2	3	8	9	4	2
3	3	3	6	7	8	5	4	4	1
5	1	5	4	4	9	4	5	6	6

Is there a pattern? I investigate by adding:

- * two odd numbers
- * two even numbers
- * an odd and an even number
